

WORK SMARTER, NOT HARDER

Reclaim your focus with the Igloo Digital Assistant

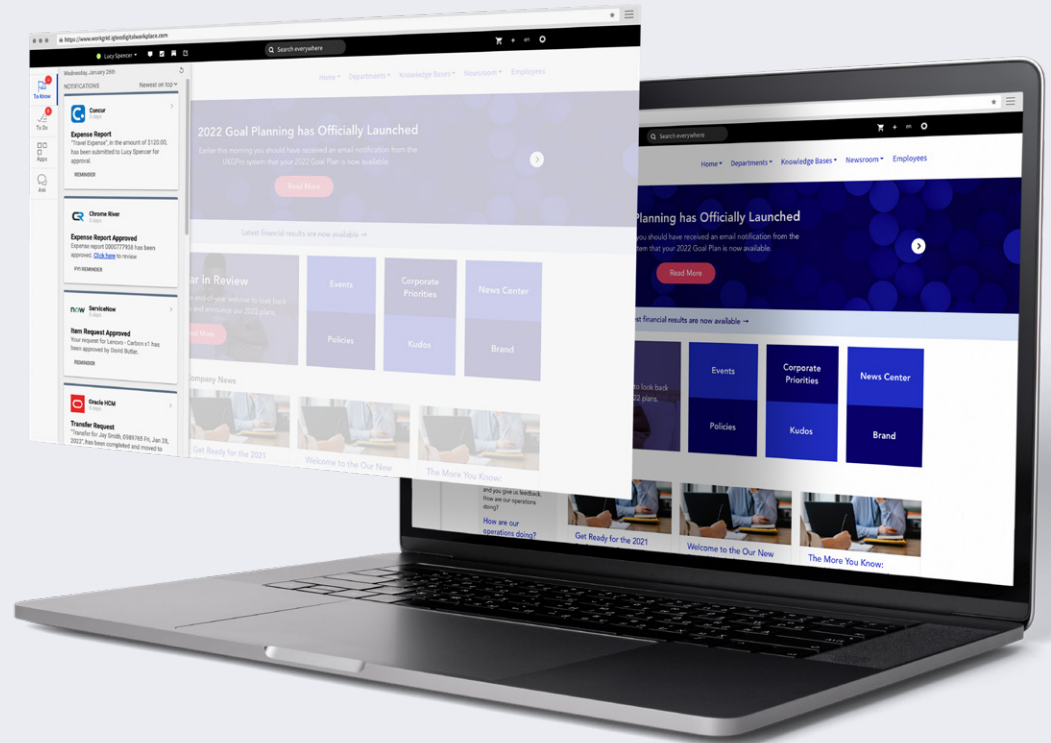

The Igloo Digital Assistant takes the unifying power of your Igloo intranet and extends it further than you thought possible. The Igloo Digital Assistant brings together important tasks, information, and alerts from your business systems into a single, connected employee experience. This is your smarter way to work.

How it works

The Igloo Digital Assistant extends the power of your modern intranet by acting as the connector to the common systems and tools in your organization.

Enrich your employee experience

The Igloo Digital Assistant takes notifications, communications, data, and tasks from critical business systems, and consolidates them within the intranet in an intuitive format that encourages engagement. The Igloo Digital Assistant offers each employee exactly what they need to know in a personalized, prioritized experience, enhancing productivity and results. This lets employees focus on what matters *now* instead of sifting through endless streams of digital content and scattered applications before they can even get started.

Solve the challenges of digital friction

Missed company communications due to content overload

Multi-step processes that take employees outside of the digital workplace

Lost productivity sifting through irrelevant or outdated information

Complicated and time-consuming actions from managing multiple digital channels

Low engagement with communications

Key benefits

Promote relevant and contextual information

Make information and data easier to find

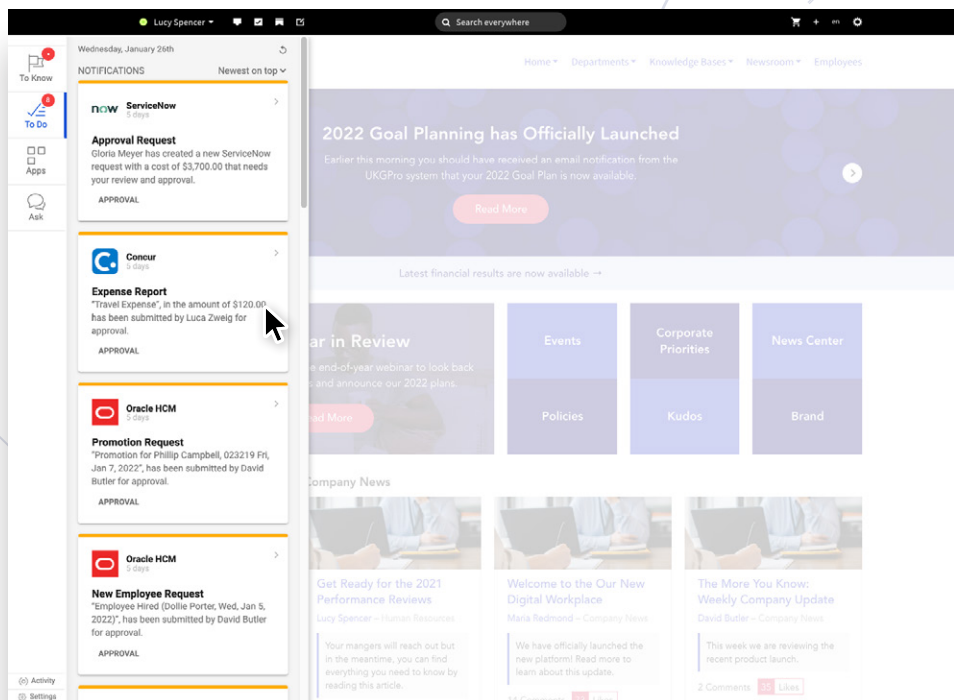

Streamline processes and approvals

Simplify interactions with enterprise systems

Automate tasks and workflows

Supported out-of-the-box integrations
